

SCOUT REPORT

KÖZGÁZ SC ÉS DSK/B

NB2 Kelet | 2025/2026 Season

Prepared for: FKE SAS | Match date: 2026-03-03

Based on 15 games (excl. 2026-03-03 meeting)

KÖZGÁZ B are a struggling team (3-12) that relies heavily on Lénárt Zoltán (18.6 PPG) and Bartus Gergely. Watch out for Lénárt's inside scoring and Bartus's three-point shooting and free throw drawing. Attack their foul-prone frontcourt (Tóth, Fodor, Bernacchini) and poor Q1 starts.

3. Offensive Analysis

3.1 Scoring Volume

Season PPG:	1.0
Last 5 PPG:	72.8
Team FT%:	64.8% (175/270 season)
FTA per game:	18.0

3.2 Scoring Distribution

Top scorer share (LÉNÁRT ZOLTÁN):	22.7%
Top 3 scorers share:	48.5%
Bench scoring (last 5):	26.9%

3.3 Quarter-by-Quarter Offensive Output

They score most in Q4 (20.6 PPG) but start poorly in Q1 (13.4 PPG). They tend to ramp up as the game goes on, which suggests they may be vulnerable to teams that establish early pressure.

4. Defensive Analysis

4.1 Points Allowed

Season PAPG:	82.9
Last 5 PAPG:	85.6

They allow 82.9 PPG on the season, making them one of the weaker defensive teams. The last 5 games are even worse at 85.6 PAPG.

4.2 Foul Discipline

Team fouls per quarter (last 5 avg):

- Q1: 3.4 fouls/game (3 bonus quarters)
- Q2: 3.0 fouls/game (3 bonus quarters)
- Q3: 2.8 fouls/game (2 bonus quarters)
- Q4: 3.2 fouls/game (2 bonus quarters)

Bonus frequency: reached team foul bonus in 10/20 quarters (last 5). This is exploitable — aggressive drives should generate free throw opportunities.

Foul trouble incidents (4+ fouls in a game, last 5):

- BERNACCHINI DÁNIEL: 5 fouls (F2KE-0173)
- TÓTH SZABOLCS ÁKOS: 5 fouls (F2KE-0173)
- BERNACCHINI DÁNIEL: 4 fouls (F2KE-0113)
- LÉNÁRT ZOLTÁN: 4 fouls (F2KE-0165)
- FODOR ANDRÁS: 4 fouls (F2KE-0173)
- BENCZE MÁTÉ: 4 fouls (F2KE-0173)

5. Timeout Patterns

Timeouts per game (last 5): 3.6

Timeout distribution by quarter:

- Q1: 4 timeouts
- Q2: 4 timeouts
- Q3: 4 timeouts
- Q4: 6 timeouts

They use timeouts most frequently in Q4 (6 in last 5 games), suggesting they rely on stoppages to manage close-game situations. Maintaining pace and pressure in Q4 could force them into uncomfortable positions.

6. Clutch & Pressure Situations

6.1 Close Game Performance

Games decided by 5 or fewer: 2-0

Games decided by 10 or fewer: 2-3

Blown out (lost by 15+): 5

Q4 performance: they score 20.6 and allow 21.0 per Q4 on average (net -0.4). They have been blown out 5 times this season.

7. Head-to-Head vs FKE SAS

2025-12-06: FKE SAS 80-64 KÖZGÁZ SC ÉS DSK/B (L for KÖZGÁZ)

KÖZGÁZ scorers in that game:

- LÉNÁRT ZOLTÁN: 20pts (2PM:6 3PM:0 FT:8/8 F:4)
- KADOCSA MÁRTON: 14pts (2PM:4 3PM:2 FT:0/0 F:1)
- BARTUS GERGELY: 7pts (2PM:1 3PM:1 FT:2/2 F:0)
- DUDÁS GERGŐ: 7pts (2PM:2 3PM:1 FT:0/0 F:3)
- FÖLDES DÁNIEL GÁBOR: 6pts (2PM:3 3PM:0 FT:0/0 F:0)

Our (FKE SAS) scorers:

- NAGY JOEL: 20pts (2PM:4 3PM:2 FT:6/6)
- NAGY GERGELY ISTVÁN: 17pts (2PM:3 3PM:3 FT:2/4)
- RÁCZ MÁRTON: 13pts (2PM:1 3PM:3 FT:2/2)
- SEHTER DÁVID: 8pts (2PM:2 3PM:1 FT:1/1)
- SOMOGYVÁRI GERGELY: 8pts (2PM:2 3PM:1 FT:1/3)

In the first meeting, we won 80-64 at home. Lénárt Zoltán scored 20 (all inside + FT) while Kadocsa had 14. Our three-point shooting (Nagy G.I. 3x3PM, Rác 3x3PM) was the difference — KÖZGÁZ had zero threes from Lénárt. Key: they will likely adjust their perimeter defense, but our outside shooting advantage should persist.

8. Game Plan Flags

Offensive Threats to Defend

- Star-dependent: Lénárt Zoltán (18.6 PPG, 23% of team scoring). Take him away and their offense collapses.
- Bartus Gergely is their second option — a versatile scorer who gets to the free throw line (93% FT in last 5). Don't foul him.
- Kadocsa Márton is a streaky third option (9.1 PPG) with good FT% but inconsistent availability (only 11 of 15 games).

Defensive Vulnerabilities to Exploit

- Foul-prone lineup: Tóth Sz.Á. (2.8 FPG), Fodor A. (2.5 FPG), Bernacchini (1.7 FPG) all regularly get into foul trouble. Attack them early.
- Poor Q1 starts: they average only 13.4 points in Q1 while allowing 20.2. Establish early dominance.
- Weak FT shooting from role players: Bencze (39%), Tóth (54%), Fodor (38%), Alfarag (30%). Foul these players in late-game situations.
- 0-7 at home. They have never won at home this season. If this is a home game for them, the venue factor works against them.

Strengths to Respect

- Lénárt at the FT line: 73% on 5.6 FTA/game — he draws fouls and converts. Avoid fouling him inside.
- Bartus Gergely: 89% FT shooter, can score from three (1.4 3PM/game). Legitimate second scoring threat.
- Q4 improvement: they score their most points in Q4 — don't let off the gas.

9. Five Key Takeaways

1. CONTAIN LÉNÁRT — He is their entire offense. Force him into tough shots, deny the ball inside, and make others beat you. In our first meeting he scored 20 (all 2PT + FT) — limit his paint touches.
2. ATTACK EARLY, BUILD A LEAD — They are terrible in Q1 (13.4 scored vs 20.2 allowed). Push the pace early and force their struggling bench into action.
3. EXPLOIT FOUL-PRONE BIGS — Tóth (2.8 FPG), Fodor (2.5 FPG), Bernacchini regularly hit 4+ fouls. Drive at them aggressively to put them in foul trouble early.
4. SHOOT THE THREE — In the first meeting, our three-point shooting (Nagy G.I., Rácz) was the key differentiator. KÖZGÁZ's perimeter defense is weak — exploit it again.
5. FOUL THEIR WEAK FT SHOOTERS LATE — Bencze (39%), Fodor (38%), Tóth (54%), Alfarag (30%) are all poor at the line. In close-game situations, send them to the line instead of giving up easy buckets.
